ANTIBIOTICS
prophylactic for elective laparoscopic cholecystectomy, are required, 353
Ascites
cirrhotic, intractable, side-to-side portacaval shunt for, results of, experimental, clinical, and metabolic, 557
Aorta
surgery, reconstruction, acalculous cholecystitis after, 245

BILIARY TRACT
ducts, common, calculi, removal, antegrade laparoscopic, using balloon-tipped embolectomy catheter, 655
injury, during laparoscopic cholecystectomy, prospective nationwide series, 577
Bladder
drainage, and pancreatic transplantation, enteric conversion after, experience with, 281
Blood
amylase, hyper-, serum, in response to ritodrine or ephedrine administered to pregnant women, 31
circulation, improvement, experimental, in pedicled intestinal grafts, hemodynamics of, after preparation of sacrificial colonic graft, 346
micro-, splanchnic, changing during CO_2 laparoscopy, 378
platelets, -derived growth factor, experimental, in intraluminal stented graft healing, role of, 49
Blood vessels
arteries, aortoiliac, bilateral, disease, occlusive, combined percutaneous transluminal angioplasty, iliac stent deployment, and femorofemoral bypass for, 249
femorofemoral, bypass, and combined percutaneous transluminal angioplasty, and iliac stent deployment, for bilateral aortoiliac occlusive disease, 249
hepatic, aberrant, hepatic transplantation using living donors with, 525
shunt, portacaval, side-to-side, for intractable cirrhotic ascites, results of, experimental, clinical, and metabolic, 557
veins, portal, umbilical portion of, lifting, new technique for assessing resectability of hilar cholangiocarcinoma, 80
vena cava, inferior, juxtahepatic, injuries, penetrating, under total vascular occlusion, management of, 469

Esophagus
excision, gastric replacement of, pyloroplasty and pyloromyotomy in, randomized controlled trail, 630
hiatus, laparoscopic mesh repair of, 399
surgery, and jejunum, modified stapling technique, after total or proximal gastrectomy, 513

GALLBLADDER
calculus, ampullary, obstruction, duration, effect of, on severity of lesions of acute pancreatitis, 499
removal, with modified cholecystoscope, alternative to cholecystectomy in high-risk patients, 273
excision, laparoscopic, bile duct injury during, prospective nationwide series, 577
inflammation, acalculous, after aortic reconstruction, 245
roentgenography, operative, fine bore intubation of cystic duct at time of, role of, prospective study of, 262
surgery, laparoscopic, elective, are prophylactic antibiotics required for, 353
removal, role of, in acquired immunodeficiency syndrome, 233
Gastrointestinal tract
appendix, inflammation, acute, are serum inflammatory markers age dependent in, 303
inflammation, in patients with acquired immunodeficiency syndrome, 481
surgery, wounds, contaminated, cost-utility analysis of, 23
surgery, appendix, wounds, contaminated, cost-utility analysis of, 23

HEART
surgery, open, without transfusion, using multimodality blood conservation, in Jehovah's Witness patients, implications for "bloodless" technique, 618

INTESTINES
anastomoses, leakage, factors contributing to, multivariate analysis of, 364
cancer; carcinoma, colon, treatment, subtotal excision, with primary anastomosis, avoiding diarrhea after, 269
rectum, does lateral lymph node dissection improve survival in, examination of node metastases by clearing method, 475
colon, cancer; carcinoma, treatment, subtotal excision with primary anastomosis, avoiding diarrhea after, 269
graft, sacrificial, hemodynamics of intestine after preparation of, improvement of circulation in pedicled intestinal grafts, 346
perforation, after renal transplantation, 63
sigmoid, surgery, and rectal mobilization, exposure technique for, laparoscopic, comparison of, prospective, 506
surgery, prolapse, prevention of, by peritoneal tethering, 313
jejunum, surgery, and esophagus, modified stapling techniques, after total or proximal gastrectomy, 513
surgery, and pancreas, end-to-end, glucagon facilitates, 401
and pancreas, leakage, preventable complication of Whipple resection, 454
with replaceable feeding tube, new technique, 652
rectum, cancer; carcinoma, does lateral lymph node dissection improve survival in, examination of node metastases by clearing method, 475
meso-, metastases, lymph node, detection, distal to carcinoma of rectum, by clearing method, justification of total mesorectal excision, 584
mobilization, and sigmoid resection, experimental, exposure technique for, laparoscopic, comparison, prospective, 506
small, conversion, after pancreatic transplantation, with bladder drainage, experience with, 281
diverticulosis, perceptions and reality, 383
experimental, lazaroid U-74500A for warm ischemia and reperfusion injury of, 389
surgery, colon, subtotal, with primary anastomosis, in colon cancer, avoiding diarrhea after, 269
jejunum, and pancreas, leakage, preventable complication of Whipple resection, 454
with replaceable feeding tube, 652
Instruments and apparatus
cholecystoscope, modified, gallstone removal with, alternative to cholecystectomy in high-risk patients, 273
tubes, feeding, replaceable, jejunostomy with, new technique, 652
Intubation
fine bore, role of, at time of operative cholangiography, prospective trial of, 262

KIDNEYS
surgery, hyperparathyroidism, when fewer than four glands are identified, long-term results after, 70
transplantation, colonic perforations after, 63

ascites, cirrhotic, intractable, side-to-side portacaval shunt for, results of, experimental, clinical, and metabolic, 557
cancer; carcinoma, hepatocellular, and cirrhosis, topical cooling-assisted hepatic segmentectomy for, 290
hepatocellular, primary and recurrent, caudate lobe, resection of, 1
cirrhotic, topical cooling-assisted hepatic segmentectomy for, and hepatocellular carcinoma, 290
surgery, resection, caudate lobe, for primary and recurrent hepatocellular carcinoma, 1

topical cooling-assisted segmentectomy, for cirrhotic liver with hepatocellular carcinoma, 290
transplantation, using living donors with aberrant hepatic artery, 525
Lymphatic system
lymph nodes, axillary, dissection, is it required in T1a breast cancer, 493
metastases, detection, in mesorectum, distal to carcinoma of rectum, by clearing method, justification of total mesorectal excision, 584
examination, by clearing method, does lateral node dissection improve survival in rectal carcinoma, 475

NERVES
ilioinguinal injuries, surgery, outcome of, 265

PANCREAS
inflammation, acute lesions of, severity of, effect of duration of ampullary gallstone obstruction on, 499
surgery, and jejunum, end-to-end, glucagon facilitates, 401
and jejunum, leakage, preventable, complication of Whipple resection, 454
transplantation, with bladder drainage, enteric conversion after, experience with, 281
Parathyroid glands
hyper-, renal, surgery, long-term results after, when fewer than four glands are identified, 70
Pediatrics
fundoplication, Nissen-Rossetti, function of, followed up into adolescence and adulthood, 259
Pericardium
disease, diagnosis, etiologic, value of routine tests during surgery, 645
Peritoneum
macrophage function, and operative stress, evaluation of, in minimally invasive operations, 357
tethering, prevention of colostomy prolapse by, 313
Progesterone
parental, influence, on prevalence and severity of mastalgia, in premenopausal women, multi-institutional cross-sectional study, 596

ROENTGEN RAYS
diagnosis, breast, mammography, abnormalities, evaluating, surgeon's role in, changing emphasis in, 297
breast, mammographically, axillary dissection in, role of, 341
gallbladder, operative, role of fine bore intubation of cystic duct at time of, prospective trial of, 262
tumors, endocrine gastroenteropancreatic, scintigraphy, somatostatin-receptor, value of in, 487

STOMACH
cancer; carcinoma, node-negative, prognostic factors of, univariate and multivariate analyses, 373
node-positive, surgery, D2 and D3, morbidity after, 240
serosa-involved, potentially curable, surgery, strategy, optimal, with intraperitoneal free cancer cells, 611
surgery, with combined resection of other organs for, with invasion to adjacent organs, retrospective study, 16
in patients older than 70 years, hospitalization after, factors predicting, 9
excision, total or proximal, modified stapling technique for esophagojujunostomy after, 513
pylorus, surgery, in gastric replacement of esophagus after excision, randomized controlled trial, 630
surgery, carcinoma, with combined resection of other organs, with invasion to adjacent organs, retrospective study, 16
carcinoma, in patients older than 70 years, hospitalization after, factors predicting, 9
D2 and D3, for node-positive carcinoma of, morbidity after, 240
Surgery
decision analysis, reader's guide to, 589
dissection, pneumo-, laparoscopic, results in initial 20 patients, 579
elective, cholecystectomy, laparoscopic, are prophylactic antibiotics required for, 353
experimental, clinical, and metabolic results, of side-to-side portacaval shunt for intractable cirrhotic ascites, 557
improvement of circulation in pedicled intestinal grafts, hemodynamics of intestine, after preparation of sacrificial colonic graft, 346
laparoscopic exposure, for rectal mobilization and sigmoid resection, comparison of, prospective, 506
lazaroid U-74500A for warm ischemia and reperfusion injury of small intestine, 389
role of platelet-derived growth factor in intraluminal stented graft healing, 49
postoperative study, antireflux, laparoscopic, illness behavior influences outcome of, 49
axillary dissection in mammographically detected carcinoma, role of in, 341
bile duct injury during laparoscopic cholecystectomy, prospective nationwide series, 577
colonic perforations after renal transplantation, 63
combined percutaneous transluminal angioplasty, iliac stent deployment, and femorofemoral bypass, for bilateral aortoiliac occlusive disease, 249
cost-utility analysis of contaminated appendectomy wounds, 23
enteric conversion after pancreatic transplantation with bladder drainage, experience with, 281
etiologic diagnosis of pericardial disease, value of routine tests during, 645
fine bore intubation of cystic duct, role of, at operative cholangiography, prospective trial of, 262
function of pediatric Nissen-Rossetti fundoplication followed up into adolescence and adulthood, 259
gastrectomy with combined resection of other organs, for carcinoma of stomach, with invasion to adjacent organs, retrospective study, 16
gastric carcinoma, in patients older than 70 years, factors predicting hospitalization after, 9
intestine, anastomoses, leakage, factors contributing to, multivariate analysis of, 364
invasive, minimally, evaluation of operative stress and peritoneal macrophage function in, 357
long-term results, of renal hyperparathyroidism, when fewer than four glands are identified at, 70
lymph node metastases, detected in mesorectum distal to carcinoma of rectum, by clearing method, justification of total mesorectal excision, 584
morbidity after D2 and D3 gastrectomy for node-positive gastric carcinoma, 240
nerve injuries of the ilioinguinal region, outcome of, 265
open heart operations without transfusion using multimodality blood conservation, in 50 Jehovah's Witness patients, implications for "bloodless" technique, 618
optimal strategy, for potentially curable serosa-involved gastric carcinoma, with intraperitoneal free cancer cells, 611
pancreatojejunostomy, leakage, preventable complication of Whipple resection, 454
papillary carcinoma of thyroid gland, based on fine-needle aspiration, 605
pyloroplasty and pyloromyotomy, in gastric replacement of esophagus, after esophagectomy, randomized controlled trail, 630
resection of caudate lobe of liver,

for primary and recurrent hepatocellular carcinomas, 1
role of cholecystectomy in acquired immunodeficiency syndrome, 233
subtotal colectomy with primary anastomosis, in colon cancer, avoiding diarrhea after, 269
topical cooling-assisted hepatic segmentectomy for cirrhotic liver with hepatocellular carcinoma, 290
reconstructive, aortic, acalculous cholecystitis after, 245
role of, and blunt trauma, in microgravity, 441
technique, antegrade laparoscopic common bile duct stone removal, using balloon-tipped embolectomy catheter, 655
glucagon facilitates end-to-end pancreaticojejunostomy, 401
laparoscopic mesh repair of esophageal hiatus, 399
modified, stapling, for esophagojujenostomy, after total or proximal gastrectomy, 513
new for assessing resectability of hilar cholangiocarcinoma, lifting of umbilical portion of portal vein, 80
jejunostomy with replaceable feeding tube, 652
open, laparoscopic, routine use of in, 58
prevention of, by peritoneal tethering, 313
for simple laparoscopic extracorporeal knot tying, 523
Syndromes
acquired immunodeficiency, appendicitis in patients with, 481
role of cholecystectomy in, 233

THYROID GLAND
cancer; carcinoma, papillary, surgery, based on fine-needle aspiration, 605
Transplants
grafts, colonic, sacrificial, experimental, preparation of, hemodynamics of intestine after, improvement of circulation in pedicled intestinal grafts, 346
experimental, intraluminal stented, healing, role of platelet-derived growth factor in, 49
intestinal, experimental, pedicled, hemodynamics of, after preparation of sacrificial colonic graft, improvement of circulation in, 346
kidney, colonic perforations after, 63
liver, using living donors with aberrant hepatic artery, 525
pancreas, with bladder drainage, enteric conversion after, experience with, 281
Trauma
blunt, and surgery, in microgravity, 441
Jehovah's Witnesses, unique problem in, 458
nerve, ilioinguinal region, surgery, outcome of, 265
operative, bile duct injury, during laparoscopic cholecystectomy, prospect nationwide series, 577
Tumors
endocrine, gastroenteropancreatic, diagnosis, somatostatin-receptor scintigraphy in, value of, 487

UTERUS
amenorrhea, pre-, mastalgia in, prevalence and severity of, influence of parental progesterone on, multi-institutional cross-sectional study, 596
pregnancy, ritodrine or ephedrine administered to, hyperamylasemia in response to, 31
